

2017 International Conference on Sustainable Development and Green Technology (SDGT 2017) Nanhua University, Taiwan , November 24-26, 2017

Conference Introduction

SDGT 2017 focuses on the sustainable development and green technology. The applications of sustainable development and green technology to such domains as Sustainability Science, Innovative Technology and Sustainability Engineering, Textiles and Clothing Sustainability et al. It is a technical congregation where the latest theoretical and technological advances are presented and discussed. We expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject.

Good News

1. Famous professor as Keynote Speaker

Prof. Tsong-Ming Lin, from Nanhua University, Taiwan;

Prof. Wen-Pei Sung, from College of Humanities and Creativities,

National Chin-Yi University of Technology, Taiwan;

Prof. Shih-Shiung Chen, from College of Science and Technology,

Nanhua University, Taiwan;

Plenary Speakers: Assoc. Prof. Yaoming Hong, from Nanhua University,

Dalin Township, Chiayi County, Taiwan

Important Date

Submission Deadline:	Before August 15, 2017
Notification Date	September 05, 2017
Registration Deadline	September 25, 2017
Conference Date:	November 24-25, 2017
One Day Academic Visit:	November 26, 2017

Call for Papers

Topics of interest for submission include, but are not limited to: Sustainability Science; Environmental and Applied Science; Agricultural and Food Science; Materials Science and Materials Technology; Climate Change; Air pollution control and equipment; Bio fuels; Ecosystem Restoration; Smart and New Technologies for Electrical Engineering; Electronics, Computer and Communication Engineering; Renewable Energy/ Clean Energy/ Green energy; Clean Coal Technology; Alternative Energy and Thermal Engineering; Wind Energy; Solar Energy ; Corporate Responsibility and Sustainable Development; Building Materials; Energy Materials; Composite; Ceramics; Metal Alloy Material; Micro/Nano materials; Iron & Steel; Welding and Mechanical Connections and Fracture; Computer Aided Design of Materials; Microwave Processing of Materials; Chemical Materials; Smart Materials and Intelligent Systems; Hydrogen and Fuel Cells; Surface Engineering / Coatings Technology.
